

## **RING SIZE GUIDE**

### **Option 1**

Just get an existing ring that fits comfortably on the finger you're wanting the new ring for.

Using a ruler, measure the inner diameter of your ring, then refer to our Ring Measurements chart below for the correct size.

Alternatively, you can send us an image of the ring placed on the ruler as shown in the above image our team will help you find the correct ring size.

25	20.6

### Option 2

After you cut out the ruler, carefully cut the line to create a slit. Wrap the ruler around your finger at the base and pull the tapered end through the slit. To make sure the ring will fit comfortably, we suggest also measuring your knuckle. We recommend selecting a size that goes on and off your finger easily. Sizing availability is specific to each product, though some larger rings can be sized down. Ring size may also vary slightly depending on style of the ring.
